**Allowable Subject Matter**

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

Applicant(s) claimed invention is directed to a method for separating a polyolefin component from a polyamide component, which are commingled.

The prior art attempts many different and diverse methods for separating post or waste polyamide mixed with a small portion of a polyolefin. The closest prior art involves the dissolving of the polyamide with a solvent while leaving the polyolefin immiscible, however, because the solvents thus far employed such as octane or glycols although successfully dissolving the polyamide do not leave the polyolefin intact, and partially reacting with additional components causing contamination of the polyamide. When other physical approaches employed such as grinding, remelting, soaking and aqueous suspensions and subsequently cyclonic comminuter, the polyamide itself is harmed and not reusable. And, since the utility of the polyamide recovered is dependent upon the absence of polyolefin polymer contaminants and its remaining intact, the crux of the invention lies in the discovery that a particular method of dissolving the polyamide by a particular ester solvent composition, as opposed to the aforementioned solvents, wherein the polyamide is miscible, and the polypropylene is immiscible, and heating to a temperature amount above the melting temperature of the polyolefin component leaves the non-miscible polyolefin in molten form and this separating the ester solvent composition containing dissolved polyamide is attained without the previous affects of the contamination . Consequently, a clean relatively pure

polyamide or nylon polymer is obtained. Such has neither been anticipated by nor made obvious from the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
